1. Do you, in your operations as recognizing NCB, request sample(s) while processing the "recognition" of CBTCs?

Yes/ No.

If yes, why? For identification purpose.

2. In addition to the CB Test Certificate and CB Test Report, what is needed in your opinion in order to increase your confidence in order to avoid asking for sample(s) and improving the recognition timeframe?

We request the sample to check the consistency between the sample and the CB Test Report and make sure that no change is made to the product after the CB Test Certificate has been issued.

Maybe the CMC can consider developing a procedural mean to that effect.
