1. Do you, in your operations as recognizing NCB, request sample(s) while processing the "recognition" of CBTCs?

Yes/  No.

If yes, why?

Please note : After we review CBTC and CBTR, if we would need additional testing, we request sample, or request an issuing NCB to carry out additional testing.

2. In addition to the CB Test Certificate and CB Test Report, what is needed in your opinion in order to increase your confidence in order to avoid asking for sample(s) and improving the recognition timeframe?

We need the following information, in order to avoid asking for samples.

- Electronic data of photograph of a product taken according to CTL Guideline.
- Instruction manual (Japanese version)
- Declaration that a product described on CBTC and CBTR and a product an applicant wants to obtain certificate for S-JQA Mark or PSE Mark is identical.

Name of NCB: JQA
