E-mail: pro@iec.ch

1. Do you, in your operations as recognizing NCB, request sample(s) while processing the "recognition" of CBTCs?

Yes/ No.

If yes, why? ONLY for components in category INST. The practice is that many times the component has been changed since the original testing for the CBTC.

For the other categories a photograph series as described in CTL-OP107 is sufficient.

2. In addition to the CB Test Certificate and CB Test Report, what is needed in your opinion in order to increase your confidence in order to avoid asking for sample(s) and improving the recognition timeframe?

In case of the component as described above we see no other alternative

Name of NCB: KEMA

Name and signature: Ted Gaertner

Date: 8 September 2005
