1. Do you, in your operations as recognizing NCB, request sample(s) while processing the "recognition" of CBTCs?

Yes/ No.

If yes, why?

We request sample(s) for the purpose of structure confirmation. Usually we don't request sample(s) for non-complex product(s).

2. In addition to the CB Test Certificate and CB Test Report, what is needed in your opinion in order to increase your confidence in order to avoid asking for sample(s) and improving the recognition timeframe?

We do not think we should make appeal against minor errr(s) of CBTC and/or CBTR , other than content of standard conformity and necessary information for local certificate(s).
