

CTL DECISION SHEET

Standard: IEC 60598-1 all editions EN 60598-1 all editions	Sub clause: 3.2.8	Sheet N°: 026/06 Page: 1(1)
Subject: Lamp-type information marking	Key words: <ul style="list-style-type: none">- Manufacturer- Marking plate- Instructions	Meeting: Decision confirmed at CTL 43rd meeting
<p>Question: In what way should the lamp-type information be rated when MT-400-type lamps are used (when ballast manufacturer has specified the ballast to be used only with certain manufacturer's MT-400-type lamp)? Rating MT-400 does not give the necessary information.</p> <p>Decision: Marking plate should have manufacturer specific rating for example HPI-T (Philips) and installation instructions should specify the appropriate(s) lamp(s) with more details (manufacturer etc.).</p> <p>Explanatory notes: --</p>
