

CTL DECISION SHEET

Standard(s): IEC 60598-1/2003 A1/2006 EN 60598-1/2004 A1/2006	Subclause(s): 8.2.3	No.	Year
		DSH 0703	2008
Category: LITE		Developed by: ETF5 OSM/LUM	
Subject: Luminaire with PGZ12 lamp cap	Key words: - PGZ12 - Metal part of the lamp cap - Class II luminaire	Decision approved at the 46 th CTL Plenary Meeting, in 2009	

Question:

Is it possible to accept a class II luminaire designed for PGZ12 lamp, where the non-current-carrying parts of the lamp cap are in contact with accessible metal parts?

Decision:

Not accepted, as the lamp standard IEC 62035 does not require double or reinforced insulation.

Explanatory Notes: For OSM/LUM this decision is applicable from now on.
