

COLLECTION OF THE CTL DECISIONS DECISION SHEET

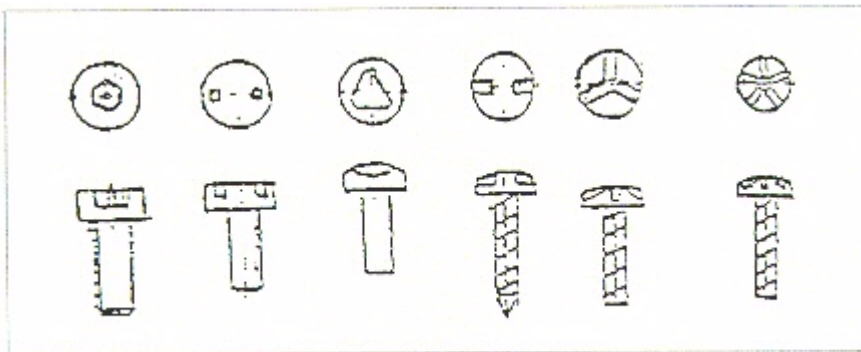

Standard: IEC 60335-1:1976, 2 nd Ed.	Sub clause: 2.2.10	Sheet No. DSH-448
Subject: Definitions	Key words: - screws that require special tools	Decision taken at the 40 th CTL meeting 2003

Question:

What types of screws are considered as requiring a special tool?

Rationale:

It is necessary to have some example of special head screws

Decision:

The examples of screws shown in the figure are considered as having a head for which a special purpose tool is needed.

EXPLANATION:

The same decision (n.1) is present in the OSM/HA decision list
