

**COLLECTION OF THE CTL DECISIONS
DECISION SHEET**

Standard: IEC 60335-1:1976, 2 nd Ed.	Sub clause: 8.9	Sheet No. DSH-452
Subject: Protection against electric shock	Key words: - touching pins of the plugs	Decision taken at the 40 th CTL meeting 2003
Question: Should the risk of electric shock when touching the pins of the plug be evaluated during simulated fault conditions in electronic circuits? Rationale: See question. Decision: The tests of sub-clause 8.9 and B19 are two independent tests and shall not be carried out simultaneously. <u>EXPLANATION:</u> The same decision (n.17) is present in the OSM/HA decision list.
