

## CTL INTERPRETATION SHEET

<b>Standard: IEC 60065, Ed. 6</b>	<b>Clause: 14.6.1</b>	<b>Sheet n. 286 Page 1(1)</b>
<b>Subject: Mains Switch Location</b>	<b>Key words:</b> - <b>Mains switch</b> - <b>Speaker</b>	<b>Decision n. 23/36 taken at 36<sup>th</sup> meeting/1999</b>
<p><b>Question:</b> Is it allowed to have the mains switch on the rear of a floor standing powered speaker?</p> <p><b>Decision:</b> Yes. The mains switch may be on the rear of a floor standing powered speaker. <u>Rationale:</u> The user may walk behind the speaker to access the rear panel</p> <p><b>Explanatory notes:</b> A slight majority of CTL-Experts agreed with the above interpretation, but WG1 of IEC TC 92 confirmed the interpretation at its meeting in Geneva.</p>
