About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

Useful links:

IEC publications search - www.iec.ch/searchpub

The advanced search enables you to find IEC publications by a variety of criteria (reference number, text, technical committee,...).

It also gives information on projects, replaced and withdrawn publications.

2.5 National Certification Marks, Certificates & Programmes

Show/briefly describe the national certification mark(s) owned, controlled or licensed by the Certification Body and which can be issued by that body on the basis of a valid CBTC/CBTR and/or CAC/CAR.

Specify whether the national certification mark/certificate is owned by the NCB or by an external organization

Describe the situation regarding registration of the national certification mark in the NCB's country(ies) of operation as a certification body.

If applicable, the Certification body should have a procedure for recognition of CB Test Certificates and associated CB Test Reports (CACs and CARs / a CB-FCS) which are based on CTF procedures

2.6 Financial support

Include information about how the Certification body receives its financial support, particularly if from other sources than fees from clients. Reference ISO/IEC 17065, Sub-clause 4.3.23 and briefly describe the structure of the financial operation of the organization.

Complete this section for Initial Assessment and for other Assessments complete only with updates from the last assessment

2.7 Organization of the Certification Body

Include information relevant to the organization of the NCB pertaining to the operated Scheme(s) including the interaction with its CBTL(s).

If the quality management system is such that the Quality Manual and/or Quality Procedure include one or more organization charts then this could be attached as an appendix to the Assessment Report.

3 Personnel Structure

3.1 Employees

Number of overall people employed by the legal entity of the Certification Body	
Number of people working in the overall <u>product</u> certification area	
Number of people involved with the <u>product</u> certification activity within the scope of this assessment	

3.2 Responsible Managers for Certification

Name	Position (title) and field of expertise	Years of relevant experience	Experience checked & found appropriate		Reports to
			Yes	No	
			<input type="checkbox"/>	<input type="checkbox"/>	
			<input type="checkbox"/>	<input type="checkbox"/>	
			<input type="checkbox"/>	<input type="checkbox"/>	
			<input type="checkbox"/>	<input type="checkbox"/>	

3.3 Principal staff involved in Certification (including remote certification officers)

When the declared years of experience is low, the assessment team should make a professional judgment based upon interviews on the awareness and knowledge of the standards, witnessing of Test Report review, witnessing of testing and measuring as well as CV information e.g. previous employments and function, training programmes completed.

			<input type="checkbox"/>	<input type="checkbox"/>	
			<input type="checkbox"/>	<input type="checkbox"/>	
			<input type="checkbox"/>	<input type="checkbox"/>	

3.5 Assessment of staff competence

Briefly describe how the competence was assessed e.g. interview, CV check, demonstration of certification decisions, knowledge of the standard, reviewing of the Test Reports, etc.

4 Quality Management System

If the Certification Body is accredited, check the most recent accreditation assessment report and the scope covered by the accreditation.
 If the Certification Body is not accredited or if the Certification Body does not make the accreditation report available, the Quality Management System of the NCB shall be examined in detail.

Structure of the Quality System

Briefly describe the structure of the quality system, its documentation and degree of implementation, and how it is checked for compliance with ISO/IEC 17065. State whether reports from external/internal audits, management reviews and corrective action processes have been reviewed and other relevant items from ISO/IEC 17065). The clause numbers and titles are provided for guidance. Please provide your relevant observations as necessary in the space below.

In any case the IECEE Rules of Procedure of the relevant IECEE Scheme(s) should be assessed in order to verify that they are duly included in the quality management system and implemented in practice and effectively. This assessment may include, but is not limited to, e.g. Operational Documents, CTL Decisions, process of Document control and provision to use the appropriate IEC Standards, etc.

The assessors also have the obligation of checking the completed OD-2016, which has the full listing of the clauses.
