About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

Useful links:

IEC publications search - www.iec.ch/searchpub

The advanced search enables you to find IEC publications by a variety of criteria (reference number, text, technical committee,...).

It also gives information on projects, replaced and withdrawn publications.

IEC Just Published - webstore.iec.ch/justpublished

Stay up to date on all new IEC publications. Just Published details all new publications released. Available on-line and also once a month by email.

Electropedia - www.electropedia.org

The world's leading online dictionary of electronic and electrical terms containing more than 30 000 terms and definitions in English and French, with equivalent terms in additional languages. Also known as the International Electrotechnical Vocabulary (IEV) on-line.

History of changes

<u>Date</u>	<u>Brief summary of changes</u>
<u>2016-06-01</u>	<u>Parts 2 and 3 have been clarified.</u>

<u>Effective date</u>	<u>Target revision date</u>
<u>2016-06-01</u>	<u>2019-06-01</u>

IntroductionScope

The IECEE operates a Peer Assessment Program utilizing on-site assessments as the primary method of verifying the competence of its operating members and their adherence to the IECEE rules. To avoid redundant assessments where there is sufficient evidence of existing competence, the IECEE provides an administrative process for documenting and recognizing that competence.

Where IECEE recognition is granted through the administrative process, this information is provided for the subsequent re-assessment as “particular points to be noted”. If it is found that the declared competency is missing, the Assessment Team is required to issue an NCR and to notify the IECEE Secretariat. Other appropriate actions will be considered by the Secretariat.

Where this claim of competence cannot be applied according to the requirements of this OD, an on-site assessment is required, as per OD-2007.

Check below relevant parts of the expansion request.

- Part 1** - For new editions and amendments of standards for which the NCB/CBTL/SPTL has been previously accepted, and which require no additional technical competence or test equipment. (Statement of Appointed Independent Experts not necessary)
- Part 2** - For additional Part 2 standards or other similar standards in a product category for which the NCB/CBTL/SPTL has already been accepted. (Statement of Appointed Independent Experts is necessary)
- Part 3** - Justification of continued competence - for reassessments where the NCB/CBTL/SPTL cannot provide evidence of sufficient experience. (Statement of Appointed Independent Experts not necessary)

Part 1: New editions or amendments of standards for which the NCB/CBTL/SPTL has already been accepted, and which require no additional technical competence and test equipment

Product Category	NCB Already accepted standards relevant to this request	Requested scope extension	CBTL/SPTL Already accepted standards relevant to this request	Requested scope extension	CBTL/SPTL Already accepted standards relevant to this request	Requested scope extension

Add additional sheets as necessary

We declare that to our knowledge, we are capable to perform testing and certification to the standards or amendments according to the requested scope extension, and that they do not require:

- Any additional technical competence by the certification and/or laboratory staff
- Any additional testing equipment from the standard(s) for which we are already accepted

Authorized NCB Representative Name:	
Authorized NCB Signature:	
Date:	

Part 2: For additional Part 2 standards or other similar standards in a product category for which the NCB/CBTL/SPTL has already been accepted, including new editions or amendments that require some additional test equipment and technical competence

Product Category	NCB Already accepted standards relevant to this request	Requested scope extension	CBTL/SPTL Already accepted standards relevant to this request	Requested scope extension	CBTL/SPTL Already accepted standards relevant to this request	Requested scope extension

~~Add~~ *Provide additional sheets as necessary*

Required Testing Experience

<u>Product Category</u>	<u>Standard</u>	<u>Number Test Reports or Certificates issued during the last three years*</u>

* Testing/certification experience for national/regional standards that are reasonably harmonized with the equivalent IEC standard can be counted as experience if no experience can be demonstrated for the IEC standard.

If no testing experience for the relevant standards can be demonstrated, please complete the justification below.

<p>Supporting Claim of Capability (Enter justification to support expansion)</p> <p><i>State if tests to <u>similar standards in the same product category</u> have been performed or other reasons why administrative acceptance should be granted.</i></p> <p>.....</p> <p>We have the laboratory and staff has the competence for acceptance.</p> <p>We have provided evidence the includes, including, but limited to the following evidence:</p> <ul style="list-style-type: none"> • Required test equipment and procedures • National accreditation to the same or similar standard • Experience in the same or similar international, national or other standards within the last three years. <p>In the event no test reports to the same or similar international, national or other standards within the last three years, the appointed experts may require further scrutiny of the other evidence provided.</p>

We declare that these standards are similar to the identified standards for which the NCB has already been accepted and has the competent certification staff.

We declare that the relevant CBTLs/SPTLs have the necessary testing staff and laboratory capabilities to carry out testing to the above mentioned standards

- Attach relevant equipment lists (OD-2024)
- Attach relevant training records
- Attach relevant test procedures

Note: In the event no test reports based on the same or similar international, national or other standards and completed within the last three years, are provided, the appointed experts may require further scrutiny of the other evidence provided.

Authorized NCB Representative Name:	
Authorized NCB Signature:	
Date:	

Part 3: Justification of continued competence

For standards where the NCB/CBTL/SPTL cannot provide evidence of sufficient experience (in the last 3 years) during reassessment. This may be requested within one month of reassessment and is subject to clearance of any relevant NCRs.

Re-assessment report no.

NCB / CBTL or SPTL *Add additional lines as necessary*

Product Category	Standards for Continued competence

<p>Supporting Claim of Competence</p> <p><i>State if tests to similar standards in the same product category have been performed or other reasons why continued acceptance should be granted. Confirm that the NCB/CBTL/SPTL still has the competent staff and laboratory capabilities, as applicable, to certify or carry out testing to these standards.</i></p> <p><i>Provide evidence of:</i></p> <ul style="list-style-type: none"> • <i>Required test equipment and procedures</i> • <i>National accreditation to the same or similar standard</i> • <i>Experience in the same or similar international, national or other standards within the last three years.</i>
