

**TESTING AND MEASURING EQUIPMENT/ALLOWED SUBCONTRACTING**  
**IEC 60335-2-11, 7th Edition (2008) - A1/2012 – A2(2015)**

**Household and similar electrical appliances – Safety – Part 2-11: Particular requirements for tumble dryers**

**PROVISIONAL**

- “R” Required
- “S” May be subcontracted, see OD 2012
- “SF” Specialized Facility, see IECEE 02-2
- “W” Witness testing in the categories “MED” and “MEAS”
- “3PPS” Three Phase Power Supply required

Clause	Measurement/testing	Testing / measuring equipment / material needed	Subcontracting
11	Heating	Pre-washed double-hemmed cotton sheets (approximately 700 mm × 700 mm, specific mass between 140 g/m <sup>2</sup> and 175 g/m <sup>2</sup> ) Probe of Figure 101	R R
15	Moisture resistance	Rinsing agent specified in Annex AA	R
19	Abnormal operation	Test probe C of IEC 61032 Ten layers of cheesecloth	R R
20	Stability and mechanical hazards	Mass of 23kg	R
Annex BB	Tumble dryers that use a refrigerating system incorporating sealed motor-compressors for carrying out the drying process	Vibration generator in accordance with IEC 60068-2-6 and straps Gas bottle Gas concentration measuring device Test apparatus for flammable refrigerants (IEC 60079-15)	S R R S
