

**TESTING AND MEASURING EQUIPMENT/ALLOWED SUBCONTRACTING**  
**IEC 60335-2-4, 6 Edition (2008) - A1/2012**

**Household and similar electrical appliances – Safety – Part 2-4: Particular requirements for spin extractors**

- “R” Required
- “S” May be subcontracted, see OD 2012
- “SF” Specialized Facility, see IECEE 02-2
- “W” Witness testing in the categories “MED” and “MEAS”
- “3PPS” Three Phase Power Supply required

Clause	Measurement/testing	Testing / measuring equipment / material needed	Subcontracting
11	Heating	Textile material (double hemmed cotton sheets 700 mm × 700 mm, specific mass between 140 g/m <sup>2</sup> and 175 g/m <sup>2</sup> )	R
15	Moisture resistance	Rinsing agent as specified in Annex AA	R
20	Stability and mechanical hazards	Tachimeter or Stroboscope Test probe 12 of IEC 61032 Test rod 3 mm in diameter and 120 mm long	R R R
21	Mechanical strength	Drop test apparatus (rubber hemisphere - diameter 70 mm and hardness between 40 IRHD and 50 IRHD fixed to a cylinder - mass 20 kg)	R
